

CHARLEMAGNE ELIAS

PROFESSIONAL SUMMARY

As a Bachelor of Science in Computer Engineering graduate, I gained practical experience through my internship as an Assistant Machine Operator and through various IoT, automation, and game development projects. I have knowledge of machine operation, calibration, quality inspection, and basic maintenance. Skilled in front-end web development (HTML, CSS), game development using the Godot engine, C programming, prototype design, and basic electronics.

WORK EXPERIENCE

Intern – Assistant Machine Operator | 2026

- Performed machine calibration and alignment checks before operation to ensure smooth and efficient production.

GrabFood Rider | 2025-2026

- Delivered customer orders, maintained professionalism, customer interaction, and time management.

Factory Worker | 2019

- Operated manufacturing equipment while maintaining strict packaging and quality standards.

ACADEMIC HISTORY

Bestlink College of the Philippines | 2026

Bachelor of Science in Computer Engineering

- Top 9 among 3rd Year Computer Engineering Students Research
- Loyalty Awardee

Bestlink College of the Philippines | 2021

Accountancy, Business, and Management

PROJECTS

- Developed a **Home Convenience Robot using ESP32 with MIT App, IoT Control, TV and Fan System** for remote control of household appliances via a mobile application.
- Developed a **Battle Bot** with a front incline mechanism and a rotating top bar designed to lift and trap opposing robots during competitions.
- Built an **RC Car** using **ESP32** technology that can be remotely controlled through a mobile phone application.
- Developed an **Obstacle Avoidance Rc Car** using **ESP32** and **Ultrasonic Sensor** to automatically detect and avoid walls or nearby objects.
- Created a **Line Tracking Rc Car** using **ESP32** and **IR Sensors** that automatically follows a designated black line path.
- Assembled and built a **5-inch Drone** from individual components, including frame, motors, ESCs, and flight controller.
